**Rubber Brooms
and Rubber Brushes**

Säger®

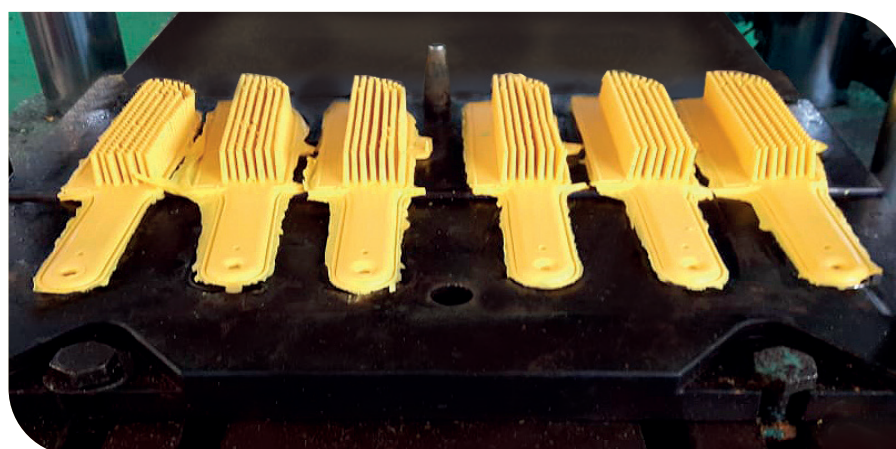

Sustainable Rubber Production

In everyday life we often use many rubber products. We use brushes to clean our kitchens, our bathrooms, the garden and workshops. It is not always easy to choose the right kind of brush. There are many different types of brushes to clean wooden floors, tiled floors, carpets, furniture, clothing, the body, our face and pet animals. There are many types of brushes made of different materials made for these purposes. Our rubber brushes are the ideal brush for all these cleaning purposes. They are the most colourful, durable efficient and environmentally friendly brushes available in the market. All our rubber brushes are made in our partner factories with the highest quality rubber and adopt ecologically advanced production methods.

Sänger® is your reliable and competent partner. With more than 35 years of experience, we offer a wide range of brushes for different purposes in different designs and colours for a wide range of applications.

Another important advantage of Sänger® is the vertical integration of our company in the manufacturing process. Comprehensive quality management begins with harvesting the raw material, continues with the manufacturing of the brushes up to their distribution. This makes Sänger® GmbH a reliable and strong partner who ensures steady quality.

Sänger® – a name that stands for innovation, new design and best service. See for yourself.

Rubber Brooms *Natural Rubber*

Solid Rubber Broom with Curved Ends

With full length squeezer and curved ends for easy cleaning around furniture, chair or table legs and floor edges. Standard thread. Extra strong.

Colour: Black

Model	Size	Ref.
S 350 i	35 cm	15 855

Body and bristles are made of pure natural rubber. The bristles of the rubber brooms are extremely hard-wearing. Even with the strongest stretch, the bristles do not tear off but return to their original shape after stretching. Advantages for the user:

- » Sustainable cleaning of any dirt, dust and finest residues.
- » Use in dry or wet environment.
- » Dust, hair or lint is easily removed by the static effect of the rubber material itself from carpets or any other type of floor.
- » Just turn the broom around to use the squeezer lip for removing fluids.
- » No damage to furniture, chair or table legs or walls during the cleaning process.
- » Suitable for indoor and outdoor use.
- » Easy cleaning of smooth or uneven surfaces.
- » Cracks and gaps can be cleaned without hindrance.
- » Rubber bristles remain flexible and elastic under any climatic condition.
- » Ideal for hygienic work: 100% hand washable or rinse off after use.
